In 2009, I set out on a journey to cycle 60,000 miles in ten years. I had no idea what the future held, but I was determined to make my dream a reality.

Over the next decade, I pedaled through deserts, mountains, and rainforests. I faced challenges that tested my limits, but I never gave up. I met incredible people along the way, and I learned more about myself than I ever thought possible.

In 2019, I reached my goal. I had cycled 60,000 miles in ten years. It was a moment of pure joy and accomplishment.

But my journey didn't end there. I realized that my story could inspire others to pursue their own dreams. So I wrote a book about my experience. *Big*

Mile Cycling is a memoir of my ten-year journey, filled with adventure, perseverance, and the power of dreams.

I hope that my story will inspire you to set your own big goals and to never give up on them. No matter what challenges you face, remember that anything is possible if you set your mind to it.

Here are a few excerpts from the book:

"I pedaled through the desert, the sun beating down on my back. The heat was relentless, but I kept going. I had to. I had a goal to reach, and I wasn't going to let anything stop me."

"I climbed the mountain, one pedal stroke at a time. The air was thin, and my legs were burning. But I kept going. I had to reach the top. I had to see what was on the other side."

"I pedaled through the rainforest, the rain pouring down on my head. The trail was slick, and the mud was thick. But I kept going. I had to reach my destination. I had to finish my journey."

Big Mile Cycling is a story of adventure, perseverance, and the power of dreams. It is a story that will inspire you to set your own big goals and to never give up on them.
